

MAST DEVELOPMENT COMPANY

2212 E. TWELFTH ST. • DAVENPORT, IOWA 52803 • PHONE (319) 323-9729

THANK YOU FOR YOUR INQUIRY

Mr. T. Nelson, Ind. Cons.
Box 1546
Poughkeepsie, New York

Two Random Access Projectors are described by the enclosures. They are the Models 132 and 136, respectively built for filmstrips and slides. We believe that the literature will answer most of your questions about the equipment, but we will be pleased to provide any additional information needed.

Besides making available the above standard units, Mast Development Company specializes in the design and fabrication of custom projection equipment and system requirements, in the quantity you require. For example, you might need greater frame handling capacity than provided by the standard units, or you might need pin registration, etc. We want to quote on both your standard and special projection equipment requirements.

Please let us know if we can be of further assistance.

Cordially yours,

MAST DEVELOPMENT COMPANY

Francis G. Telshaw
Public Relations Director
